Nairobi, Kenya • 0716794363 • [linkedin.com/in/giftmacvane-momanyi](https://www.linkedin.com/in/giftmacvane-momanyi) • [github.com/Juniour7](https://github.com/Juniour7)

## Professional Summary

Full Stack Software Engineer with 3+ years of experience building scalable web applications across SaaS, e-commerce, fundraising, and organizational platforms. Skilled in React.js, TypeScript, Tailwind CSS, Django, and modern web development workflows. Experienced in collaborating with designers, frontend engineers, and backend developers to deliver production-ready applications that improve user experience and business efficiency.

Passionate about continuous learning, adapting to new technologies, and growing as a software engineer through real-world problem solving and team collaboration.

## Technical Skills

|           |                                                             |
|-----------|-------------------------------------------------------------|
| Frontend  | React.js, JavaScript, TypeScript, Tailwind CSS, HTML5, CSS3 |
| Backend   | Django, Python, REST API Integration                        |
| Tools     | Git, GitHub, Jest, Server Deployment, Agile Collaboration   |
| Strengths | UI/UX Implementation, Team Collaboration, Problem Solving   |

## Professional Experience

### Software Engineer — Yelegroup (Remote) | Jan 2025 – Present

- Developed and shipped multiple client products from design to production using React.js, TypeScript, and Tailwind CSS.
- Collaborated closely with designers and backend engineers to transform ideas into scalable production-ready applications.
- Improved development efficiency through reusable frontend components and streamlined workflows.
- Worked on multiple frontend systems focused on responsiveness, performance, and user experience.
- Expanded backend engineering skills through Django API integrations and production system collaboration.

### Frontend Engineer — Iraady (Remote) | Sep 2024 – Dec 2024

- Collaborated remotely within a distributed team to develop a fundraising platform supporting communities and individuals in need.
- Played a key role in improving the application's UI/UX design and overall user interaction.
- Developed responsive frontend interfaces using React.js and contributed to faster product delivery.
- Helped deliver a polished and accessible fundraising experience for end users.

## **Frontend Developer Intern — Dukatech Solutions | Jun 2024 – Aug 2024**

- Collaborated within a physical internship environment focused on modern software engineering and teamwork.
- Learned frontend technologies, UI/UX workflows, and collaborative product development under mentorship.
- Contributed to the design and frontend implementation of the Pearlshi Caterers platform from concept to deployment.
- Helped improve online visibility, booking management, and business credibility through digital solutions.

## **Frontend Engineer — Technova Solutions (Remote) | Feb 2026 – Present**

- Contributed to the development of Bochaberi Multitenant, a construction finance management SaaS platform.
- Built scalable frontend interfaces using React.js, TypeScript, Tailwind CSS, and Jest testing workflows.
- Integrated backend APIs and collaborated with engineers to deliver seamless platform functionality.
- Supported production-ready SaaS workflows focused on operational and financial efficiency.

## **Selected Projects**

### **Kahawa Wendani SDA Church Information Management System**

Designed and developed a secure church information and payment management system using React.js, Django, Tailwind CSS, and Daraja API integration.

### **Yelen — E-commerce Platform**

Built a scalable multi-vendor e-commerce platform enabling users to create and manage online stores using React.js and Django.

### **Bochaberi Multitenant**

Developed frontend systems for a construction finance management SaaS platform focused on operational workflow efficiency.

### **Pearlshi Caterers**

Designed and implemented a responsive business platform that improved online visibility and customer booking workflows.

## **Education**

### **BSc. Computer Science & Mathematics**

Kenyatta University — Expected Graduation: Dec 2026

### **ALX Backend Engineering Training**

Jun 2025 – Nov 2025

### **Full Stack Development Training — Devtown**

Sep 2023 – Dec 2023

## Certifications

- ALX Backend Engineering Certification
- Devtown Full Stack Development Certification

## Professional Strengths

- Fast learner with strong adaptability to new technologies and engineering workflows.
- Passionate about continuous skill growth and modern software development practices.
- Strong collaboration and communication skills in both remote and physical team environments.
- Focused on building impactful digital products that solve real-world problems.
